LIFE CYCLE SERVICE

"Our lifecycle and digital services are developed together with our customer to ensure a perfect fit."

Our complete turnkey services mean we stay by our customers' side throughout the journey from the first drawing of the ship to the engineering and construction phase, and all the way to providing after sales services and complete modernizations or refurbishments. It is a never-ending cycle of partnership and support throughout the whole lifespan of the vessel.

ALMACO offers solutions for energy-saving, preventative maintenance, and equipment use optimization. These solutions help our customers by reducing their workload while saving energy costs and extending the lifetime of the equipment and areas.

DIGITAL LIFECYCLE TOOLS

ALMACO offers solutions for preventative maintenance and equipment use optimization to maximize energy and cost savings. These solutions all help the owners achieve the highest environmental requirements, while optimizing the use of the catering equipment and extending the lifetime of the catering areas as a whole.
